**Fax: (202) 267-5370**

**E-Mail: robert.bowles@faa.gov**

**Robert L. Bowles is Manager of Statistics and Forecasts in the Office of Aviation Policy and Plans of the Federal Aviation Administration. In his current position, Mr. Bowles is responsible for developing demand forecasts for the commercial and general aviation industries, activity forecasts for all FAA air traffic facilities, the publication of numerous statistical publications dealing with aviation data, and conducting an annual aviation forecast conference. Mr. Bowles joined the FAA in 1980 as an Industry Economist where he was directly responsible for developing all demand and activity forecasts related to the U.S. commercial aviation industry.**

**Prior to joining the FAA, Mr. Bowles was employed in the private sector, spending over eight years with Eastern Air Lines in both their New York and Miami Executive Offices. Positions held with Eastern included Manager of Marketing Forecasting and Manager of Forecast Coordination. He has also held the positions of Transportation Economist with the Department of Energy and the Interstate Commerce Commission.**

**Mr. Bowles holds an MBA degree from The American University and a BS degree in Economics from the University of North Carolina at Chapel Hill.**
